

# David H Smith

## Managing Director

### *Strengths:*

*In depth Knowledge of all Trades*

*Strong Relationships with Sub-contractors*

*Source of advice to Client and Professional Team*

### Roles and Responsibility:

David as the managing director has overall responsibility for every H.H. Smith project, his key roles and responsibilities include:

- Maintaining board level link
- Ensure that resources are available for each project
- Deals with elevated sub-contractor and client issues

### Profile:

David has been in the construction industry since leaving school at the age of 16. He joined as apprentice to a national mechanical services contractor where he was elevated to mechanical engineer and contracts manager responsible for major projects throughout the country.

He joined H.H. Smith in 1978 and has been the driving force for expanding the company from humble beginnings to its present size today.

He has been responsible for maintaining a highly skilled workforce within the company. The current staff of approximately 80 employees are fully qualified in their own field. David supports and promotes professional development within the company to ensure staff fulfilment and company construction knowledge excellence is maintained.

### Recent Projects:

David has experience working in many sectors of the construction industry as these recent projects testify:

- Milbrook - 45 Bed Residential Care Home - £2.7m (2011 )
- Cathedral House – Salford Cathedral - £6m (2009/10)
- BASF – Swinton - £2.5m (2010)
